## WORK EXPERIENCE

- COREPROC INC.

Fullstack Developer - Regular

Taguig City, NCR - Remote  
Feb 2024 - Present

  - Built monthly performance reports for wholesalers using **Laravel (backend)** and **Inertia.js/Vue.js (frontend)**, helping clients see their data progress.
  - Enhanced a legacy package tracking system by upgrading backend logic and integrating **Laravel**-based email and **FCM push notifications**, resulting in more reliable alerts and improved user engagement.
  - Built a payment system for a parking management app using **PayMaya**, added real-time **push notifications with FCM**, and improved the backend **API** using **Laravel**.
- DINOLAND SM NORTH EDSA

Fullstack Developer - Contractual

Makati, Metro Manila - Hybrid  
Oct 2023 - Feb 2024

  - Built a ticketing and inventory management system using **Laravel** for the backend and **jQuery** for interactive frontend features, making it easy for users to manage tickets and data.
  - Added features to monitor ticket status, generate revenue reports, handle purchase orders, and track user actions, improving transparency & helping the team **improve marketing decisions** using **jQuery**.
- CLOUDTECH ERP

Technical Consultant - Regular

Makati, Metro Manila - Hybrid  
Oct 2022 - Oct 2023

  - Used **Javascript** based scripture NetSuite SuiteScript 1.0 and 2.0 to build custom features like check printing templates for invoices and accounts receivables, making the process 50% more efficient.
  - Worked closely with both technical and non-technical teams, helping **clearly communicate** client needs and making sure the solutions matched business goals.
- DOST- PCIEERD

Information Analyst II - COS

Taguig City, NCR - Remote  
Nov 2021 - Nov 2022

  - Improved the Project Management System for DOST-PCIEERD using **Laravel**, automating expense approvals and cutting processing time by 60%.
  - Added tracking tools to monitor project timelines, helping teams stay on schedule with 90% accuracy.
  - Optimized the search feature to handle over 1,000 approved projects every month, **reducing search time** by 70% and improving user experience.
- PHILIPPINE STATISTICS AUTHORITY (PSA)

Information Analyst I - COS

QC, Metro Manila - Onsite  
Mar 2021 - Nov 2021

  - Built an online science quiz bee system using **CodeIgniter 4**, with real-time score tracking and Wi-Fi latency monitoring to ensure a smooth quiz experience.
  - Led the **shift from manual to digital survey forms** for the Family Income and Expenditure Survey (FIES), streamlining data collection and boosting completion rates by 50%.
- PHILIPPINE CHRISTIAN UNIVERSITY

Jr. Web Developer - Contractual

Dasmarinas, Cavite - Onsite  
Nov 2020 - Mar 2021

  - Developed an online student guidance system using **Laravel 8**, making it easier to manage student information.
  - Added a QR code attendance feature for employees, which **improved tracking accuracy** by 30%, especially helpful during the pandemic.

## EDUCATION

CAVITE STATE UNIVERSITY - MAIN

Bachelor of Science in Information Technology

Indang, Cavite
